

PLEASE, PLEASE, PLEASE DO NOT ALLOW PASSENGERS TO TALK ON CELL PHONES ON A/C IN FLIGHT!!! Many people on cell phones are discourteous, disrespectful, crass, loud, noisy, argumentative -- all situations not needed to be added in a confined metal tube at 39,000 feet in the air. It is not a pleasure, and often not a pleasant experience to listen to anyone's cell phone conversation anywhere. Thank you for accepting my opinion on this matter.
